

Welcome to Endoscopy Center. We are a state of the art free-standing Endoscopy Center, located just across the street from the St. Vincent Carmel Hospital.

We are an Endoscopy Center, offering specialty services for patients requiring diagnostic procedures for gastrointestinal disorders. Our fully equipped procedure rooms offer the latest in technology for patients and staff. Our facility is fully licensed by the State of Indiana and Medicare certified.

A highly trained, superbly skilled professional team, staffs each room with no other mission than to support you and your physician. Our pre-procedure and recovery areas provide the necessary privacy for you and your family. Our pediatric area is quietly segregated from other areas, allowing a more secure environment for our younger visitors.

Our Surgery Center participates at some level, with virtually all of the insurance companies serving central Indiana. At the time of visit, patients are asked to sign an authorization form allowing us to file with their insurance companies. Insurance claims are prepared at our billing office and filed for the patient. Please note that as with your physician's professional fees, patients are advised that charges for Pathology, Radiology and Anesthesia services are billed separately by those specialities.

For further information, call the Endoscopy Center, Monday-Friday between the hours of 8:00 a.m. and 4:00 p.m.
